

ISMAEL FREITAS

Three years building full-stack web applications at Concealed, mostly React on Supabase. I work across internal products and client projects, and I talk to the clients directly — versatile by necessity and by preference.

EXPERIENCE

WEB DEVELOPER

JUL 2023 — JUN 2026

CONCEALED · REMOTE

- ♦ Built and shipped full-stack web applications for internal products and external clients, mainly React front ends on Supabase.
- ♦ Acted as the direct point of contact for assigned client accounts: gathered requirements, scoped new requests and resolved issues, taking execution decisions myself and passing the rest to the project manager for prioritisation.
- ♦ Moved between marketing sites, custom Shopify storefronts and bespoke web apps — a rewards system among them — as the agency's work required, picking up each stack as needed.
- ♦ Worked in a small team where the same person handles data model, interface and deployment — the reason the range of work above is this wide.

INFANTRY SOLDIER

NOV 2020 — JUL 2022

EXÉRCITO PORTUGUÊS · VISEU, PORTUGAL

- ♦ Served in the 1st Riflemen Company, 14th Infantry Regiment.
- ♦ Deployed on the NATO "Tailored Forward Presence" mission in Romania, plus a 15-day multinational exercise.

EARLIER

Goods transport driver — Transvinha, Leiria	2020
Cattle farmer — Landbrukstjenester Salten, Norway	2018
Goat farmer — Misværgestas, Norway	2017
